

Attachment H

Administrative Fee and Administrative Services

Administrative Fee

The Builder is obligated to pay to AQUA an Administrative Fee based on AQUA's administrative costs and for other costs incurred by AQUA for consulting services and legal services. The Administrative Fee is calculated in the following manner:

AQUA's Administration Fee: This is based on AQUA's average cost experience: (a) BLANK Dollars (\$.00), plus (b) BLANK Dollars and Forty Cents (\$) multiplied by the planned number of feet of sewer main in the Extension Project, plus Bland Dollars (\$) for each pump station included in the Extension Project. Builder is not entitled to a refund if actual footage is less than planned footage. AQUA reserves the right to charge the Builder for additional footage if actual footage is significantly more than planned footage.

Consulting and Legal administration fee:

Legal services for preparing and filing PUC Territory Application: \$BLANK when needed
Engineering consulting fees to review plans for new pump station and collection system and for as-built plan review: \$BLANK when needed

Administrative Services

In exchange for the Administrative Fee, AQUA will, prior to commencement of construction and, if needed, after commencement of construction during the term of this Agreement, prepare and/or review this Agreement and related documents, review and approve Builder's proposed plans for the limited purpose of determining suitability of the Extension Project for addition to AQUA's sanitary sewer system, administer the terms of the Agreement, and review other documents to be submitted, furnished or delivered to AQUA pursuant to this Agreement (collectively, the "Administrative Services"). AQUA's performance of the Administrative Services does not alter the relative responsibilities, liabilities and indemnification of and by the parties as set forth in this Agreement.
