Phone: \_\_\_\_\_  
E-mail: \_\_\_\_\_

( ) Builder ( ) Owner ( ) Plumber ( ) Sprinkler Contractor ( ) Other

**B. Location of Proposed Service**

Address: \_\_\_\_\_  
City, State, Zip: \_\_\_\_\_  
Municipality: \_\_\_\_\_  
County: \_\_\_\_\_

For developments, attach separate page with street addresses and lot numbers.

**C. Customer Billing Address:**

If blank, applicant will be billed.

Name: \_\_\_\_\_  
Company Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
City, State, Zip: \_\_\_\_\_  
Phone: \_\_\_\_\_  
Email: \_\_\_\_\_

**D. Status of service:** (check all that apply)

( ) New ( ) Temporary  
( ) Increase in Size ( ) Relocation

**E. Type of Occupancy:** (check all that apply)

( ) Residential ( ) Commercial ( ) Industrial  
( ) Public ( ) Other \_\_\_\_\_

**F. The fire sprinkler system design and installation details have been prepared and approved by the following registered professional engineer or NICET representative (Level III or IV):**

Name (print): \_\_\_\_\_ Registration/Certification No.: \_\_\_\_\_  
Company Name: \_\_\_\_\_  
Address: \_\_\_\_\_ City: \_\_\_\_\_ State: \_\_\_\_\_

**G. It is understood that I must design, install, own, and maintain a separate service line to be used exclusively for firefighting purposes from the curb valve to the building including all fixtures required by the Company. The domestic service line cannot be utilized to provide service to any part of the fire system including tank and/or pump type systems fed by a hose connection or any other type of fixture which is part of the domestic system. I acknowledge that the Company is not responsible for the sizing of either the Company's or Customer's service line from the main to the curb, as well as the line to the building. The Company is not responsible, nor liable, for determining the adequacy of flow and pressure to meet the fire system needs.**

- I request that the Company install a fire service connection and lateral, which originates from the Company's main and terminates at the curb, to be ( ) 1" ( ) 1.5" ( ) 2" ( ) 4" ( ) 6" ( ) 8" ( ) 10" in diameter.
- Total maximum water requirements including allowance for inside hose stream, hydrants and sprinkler system is ( ) gpm.
- To have fire hydrants beyond the meter: ( ) Yes ( ) No Quantity of hydrants beyond the meter \_\_\_\_\_
- To contain antifreeze or other inhibitor: ( ) Yes ( ) No
- The fire connection size (other than one and two-family residential lines) will determine monthly rate charge for the fire service.
- One and two-family Residential services will follow the Company's rate schedule for "Residential Multiple Meter Sets".

**H. I understand and agree to install a Company approved backflow prevention device on the fire service line at an approved location before any branch line or outlet as specified in the Company's Manual of Cross-Connection Control.**

\*\*\*\*\*

I expressly agree for myself, my successors, and assigns, to release, defend, and indemnify the Company from any and all responsibility and liability resulting from the inaccurate sizing of the fire service line and connection, the inadequacy of design of the system, damage as the result of introducing antifreeze into the system, and improper installation, utilization and maintenance of the system.

In accordance with Rule 19 of the Company's Rules and Regulations for Company service, the cost of any Company service line in excess of the applicable maximum Company investment shall be paid by the Customer, plus all applicable taxes including income taxes occasioned by the contract. Any amount paid by the Customer shall not be subject to refund. The Company may require payment of the estimated amount of such excess cost in advance of the installation and will make a partial repayment to the extent the actual cost is determined to be less than the estimate.

**I HAVE READ AND UNDERSTAND THE RULES AND REGULATIONS OF THE COMPANY LOCATED AT [WWW.AQUAWATER.COM](http://WWW.AQUAWATER.COM) AND FURTHER UNDERSTAND THAT A METER BOX / VAULT IS REQUIRED FOR ALL SERVICE LINES.**

**Aqua requires that all domestic and fire services, including those used for construction sites, have a water meter installed prior to activation of service. Pennsylvania Law (Criminal Code 18 Pa.C.S.A. 3926) prohibits the activation of a public utility service line without a measuring device (water meter). Any person who activates a service without a meter violates the Section 3926.**

**I. Applicant Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**This application is valid for one (1) year from date approved.**
