( ) Builder ( ) Owner ( ) Plumber ( ) Sprinkler Contractor ( ) Other

**B. Location of Proposed Service**

Address: \_\_\_\_\_  
City, State, Zip: \_\_\_\_\_  
Municipality: \_\_\_\_\_  
County: \_\_\_\_\_

For developments, attach a separate page with street addresses and lot numbers.

**C. The fire sprinkler system design and installation details have been prepared and approved by the following registered professional engineer or NICET representative (Level III or IV):**

Name (print): \_\_\_\_\_ Registration/Certification No.: \_\_\_\_\_  
Company Name: \_\_\_\_\_  
Address: \_\_\_\_\_ City: \_\_\_\_\_ State: \_\_\_\_\_

**D. It is understood that I must design, install, own, and maintain a separate service line to be used exclusively for firefighting purposes from the curb valve to the building including all fixtures required by the Company. The domestic service line cannot be utilized to provide service to any part of the fire system including tank and/or pump type systems fed by a hose connection or any other type of fixture which is part of the domestic system. I acknowledge that the Company is not responsible for the sizing of the joint domestic and fire service line from the main to curb, as well as the individual domestic and fire services from curb valves to the building. The Company is not responsible, nor liable, for determining the adequacy of flow and pressure to meet the fire system needs.**

I am applying to the Company for a residential joint domestic and fire service (**main to curb only**) to the aforementioned building.

- I request that the Company install a single service connection and lateral, which originates from the Company's main to the curb to be: ( ) 1" ( ) 1.5" ( ) 2" in diameter based upon a **combined FIRE and DOMESTIC demand** of ( ) gpm.
- I also request that the following size service connections be provided at the curb valves:  
Fire service connection: ( ) 1" ( ) 1.5" ( ) 2"  
Domestic service connection: ( ) 1" ( ) 1.5" NOTE: The Company shall establish the domestic meter size.
- Total maximum water requirements including allowance for inside hose stream, hydrants and sprinkler system is ( ) gpm.
- To contain antifreeze or another inhibitor: ( ) Yes ( ) No.
- One and two-family Residential services will follow the Company's rate schedule for "Residential Multiple Meter Sets".

**E. I understand and agree to install a Company approved backflow prevention device on the fire service line at an approved location before any branch line or outlet as specified in the Company's Manual of Cross-Connection Control.**

\*\*\*\*\*

I expressly agree for myself, my successors, and assigns, to release, defend, and indemnify the Company from any and all responsibility and liability resulting from the inaccurate sizing of the fire service line and connection, the inadequacy of design of the system, damage as the result of introducing antifreeze into the system, and improper installation, utilization and maintenance of the system.

In accordance with Rule 18 of the Company's Rules and Regulations for Company service, the cost of any Company service line in excess of the applicable maximum Company investment shall be paid by the Customer, plus all applicable taxes including income taxes occasioned by the contract. Any amount paid by the Customer shall not be subject to refund. The Company may require payment of the estimated amount of such excess cost in advance of the installation and will make a partial repayment to the extent the actual cost is determined to be less than the estimate.

**I HAVE READ AND UNDERSTAND THE RULES AND REGULATIONS OF THE COMPANY LOCATED AT WWW.AQUAWATER.COM AND FURTHER UNDERSTAND THAT A METER BOX / VAULT IS REQUIRED FOR ALL SERVICE LINES**

**Aqua requires that all domestic and fire services, including those used for construction sites, have a water meter installed prior to activation of service. Pennsylvania Law (Criminal Code 18 Pa.C.S.A. 3926) prohibits the activation of a public utility service line without a measuring device (water meter). Any person who activates a service without a meter violates the Section 3926.**

**F. Applicant Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**This application is valid for one (1) year from date approved.**

\*\*\*\*\* **FOR COMPANY USE ONLY** \*\*\*\*\*
